

COMPANY PROFILE

Siam Steel International Public Company Limited

Since 1953

Siam Steel Group's first business operation began in 1953.

With more than 7 decades of experience in designing, manufacturing and distribution, Siam Steel Group expands its business into a wide range of industries, manufacturing high quality products with application of sophisticated production technology to supply for domestic and worldwide markets.

At present, Siam Steel Group stands as one of the leaders of the Thai industry involving 3 major product categories; Furniture Group, Construction Materials & Prefabricated/Modular Building Group, and Renewable Energy Group.
